Objective

Full Stack Developer Intern with hands-on experience in C#, .NET, Vue.js, TypeScript, JavaScript, Node.js, SQL, and Cloud Computing (Azure, GCP). Skilled in both on-premises and cloud-native environments, working across backend, frontend, and databases. Passionate about building scalable applications, APIs, and data-driven solutions. Seeking to leverage strong problem-solving and collaboration skills in a dynamic, innovation-driven environment.

Education

- **Faculty of Informatics and Administration of São Paulo (FIAP)**
  Bachelor's Degree In Information Systems, 2024 - 2027

Professional Experience

:Hiperstream, São Paulo, Brazil

Software Development Intern | 2025– Present

- Developed and maintained applications using C#, .NET, Vue.js, TypeScript, JavaScript, Node.js, and SQL.
- Worked on backend, frontend, and database layers of proprietary platforms, balancing on-premise infrastructure with cloud-based services (Azure & GCP).
- Implemented REST APIs, data processing flows, and system integrations to optimize performance and scalability.
- Collaborated with cross-functional teams to debug, test, and deploy solutions in agile environments (Scrum, Kanban).
- Supported CI/CD pipelines, observability, and troubleshooting to ensure reliability of production systems.
- Implemented unit testing (xUnit, C#) and created technical documentation to improve incident handling.

Project Management Intern | 2024 – 2025

- Assisted in customer success and project delivery, enhancing client autonomy and system adoption.
- Coordinated the successful launch of 6+ enterprise projects, temporarily leading in the absence of a project manager.
- Conducted stakeholder status meetings, delivering clear reports and aligning expectations.
- Ensured value delivery along the customer journey, addressing risks and issues proactively.
- Recognized internally for initiative and cross-team collaboration.

Projects

- **goDigital Code! – Full-Stack Management System**

- Designed and implemented a management platform for a small business, covering POS, inventory, clients, and finance.
- Built audit logging, backup/restore, and JWT + RBAC authentication for compliance and security.
- Delivered dashboards with KPIs, sales, and alerts for real-time decision-making.
- Developed and deployed an AI module in Python for demand forecasting and business insights:
  - Forecasting service with Prophet for multiple horizons (1, 3, 7 days).
  - Integration with LLMs (OpenAI API) to generate human-readable recommendations.
  - Roadmap for RAG-based chatbot to query MySQL in natural language
- **Sales Website (Love in Candle)** – Designed and deployed a fully functional e-commerce platform.
- **Data Analytics Projects (Python & SQL)** – Conducted trend analysis and created actionable insights.

Technical Skills

- **Programming Languages & Frameworks:** C#, .NET, Java, Node.js, TypeScript, JavaScript, Vue.js, SQL, HTML, CSS
- **Tools & Cloud Platforms:** Git, GitHub, Azure, Google Cloud Platform (GCP), Docker, Figma
- **Software Engineering Practices:** REST APIs, Microservices, CI/CD, Agile (Scrum/Kanban), Testing & Debugging, Version Control
- **Project Management Tools:** Jira, MS Project
- **Languages:** Portuguese (Native), English (Advanced), Spanish (Intermediate), Italian (Basic)

Soft Skills

- Strong problem-solving & analytical mindset
- Communication & cross-team collaboration
- Fast learner, adaptable to high-pressure environments
- Time management & prioritization

Certifications and Courses

- **Learn to Program in C# with Object-Oriented Programming** | Alura (2025)
- **PMP and CAPM Certification - PMBOK v.7** | Alura (2024)
- **Customer Success: Customer-Centric Culture** | Alura (2024)
- **Microsoft SQL Server 2022: SQL Fundamentals** | Alura (2024)
- **Agile Management: Exploring Agile Concepts** | Alura (2024)
- **Scrum: Agility in Your Project** | Alura (2024)
